

GEOTECHNICAL LABORATORY

Each group will read the provided material for each laboratory prior to lab session.

Attendance is mandatory (Sign-in and Sign-out sheet will be provided).

Each group will present one report for each test.

Group assignments are permanent throughout the semester.

The group leader will organize the work & communicates with the T.A.

Each member of the group should have read the experiment prior to the laboratory period.

Report format is explained in notes on report writing and must be followed.

Reports are due the following laboratory period, and the graded reports will be returned the following week.

All equipment must be returned to its place, clean and complete.

The work area should be kept clean. Otherwise points will be deducted from the group report.

Individual participation is required for your 10% of your laboratory grade.

A final laboratory exam will include everything and is scheduled at the end of the term.

No smoking or any food is allowed during the laboratory period.

The participation of group members is to be included as a list at the end of the report.

In case of absence from a laboratory, proper documentation must be provided, which will result in an individual makeup and conduct of the laboratory session.

Office hours of Instructor are posted on the course syllabus.
